

Hello Greg & Sheryl,

Happy New Year!

Oh, I'm really sorry that I forgot to send you some feedback, but there was so much to do and to see during my month in NZ, that afterwards I didn't know where to start with all my new impressions. And then all-day-life caught me much too soon...

The day on the bike was one of the highlights of my time in New Zealand, and I still remember every part of it. It was such a wonderful day! The tour itself was fantastic, I can't tell you how much I enjoyed the landscape and the quietness and peacefulness of the surroundings. And of course the waterfall was one of the most beautiful I've ever seen!

Your tour-instructions were so perfect that it made it totally easy to follow them and find my way although I've never been there before, and the bike itself was really comfortable and easy to ride. Do you know that I'm looking for such a good bag for the handle-bar of my own bike as you had on the bike? But in Germany it's nearly impossible to find such a bag which includes a bottle-holder and a clear top for a map! Wish I had brought one with me from NZ!

Well, I'm still proud of myself that I didn't had too many problems with the hills I rode on the tour. It was fine, that the steep parts were in the beginning, so in the afternoon I could just let it roll. Did you know that I could have been back much faster, but I didn't want the tour to end and was very, very slowly during the last 14 km.

You see, I'm still dreaming of that day in Hawkes Bay!

Hope, you are fine and enjoy the summer, while we are freezing here in a very cold and snowy winter.

Kind regards from Germany

Marina
